(*) **Test Lab:** Pascal Dufour & Ray Oei

Bring your own laptop!

The Lab sees live testing, games, competitions, expert sessions and is a really fun place to hang out, meet new friends and learn something new outside of the conventional classroom setting. The Test Lab is the place to explore, test, play, learn, meet, confer, have fun and make friends...

Facilitation: Peter Schrijver

Discussions will be facilitated. More info can be found here: <http://testingthoughts.com/blog/28>.
